Remaining under investigation	1

Fiscal Year 2005

Total Complaints received	13
Status:	
Closed by Board action	10
Closed following disciplinary action	2
Pending legal review by the Office of the Attorney General	1

For Board Determination:

I-PSY-2008-9 C alleged that due to experiences as a child they sought out the help of the R. The R used hypnosis and asked questions about the C's family and asked if the C had ever had any satanic dreams. The C stated that they had a dream about lying on a car with people around the C with dark capes. The R stated that the C's problems were coming from the C's parents, that they were in a satanic cult and one of the C's parents was a high priestess and that the C had been subjected to satanic cult rituals. I NV revealed that the R has been previously disciplined and the R's license is suspended and has a number of pre-reinstatement requirements prior to becoming licensed again. IBOL recommends the Board authorize closure with a letter to the C explaining the R's licensure status.
